

Our selection of **top quality lumber**, combined with our **innovative inspection, grading, branding, and packaging process** provides our customers with lumber that not only makes the grade, but exceeds it.

PERFECTPack® SYSTEM

We established a new inspection, grading, branding and packaging process. Our lumber-yard customers applauded. In addition to offering unmatched quality, our PERFECTPack® system efficiently packages lumber in the right lengths and is individually labeled for better handling, improved inventory control and reduction of waste.

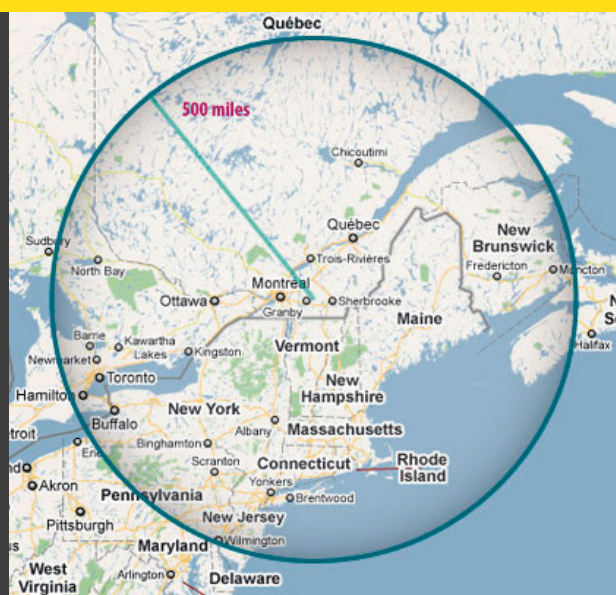

This innovative process helps our customers to:

- generate more sales
- increase inventory turns
- boost profits
- build competitive advantage

ECO-FRIENDLY PRODUCTS

At Timber Trading, all of our efforts are meant to have a positive impact on the environment. And because we distribute Eastern White Pine that is logged, manufactured, and graded within a 500-mile radius, it qualifies as a regionally-sourced building material—a plus for those seeking LEED certification.
