

LIMITED LIFETIME WARRANTY AGAINST FUNGAL DECAY AND INSECT ATTACK

The LIFESPAN® SOLID SELECT range of treated wood products is supported by a limited lifetime warranty for protection against fungal decay and insect attack. Where any LIFESPAN® SOLID SELECT product used in the appropriate application becomes structurally or functionally unserviceable during the lifetime of the original consumer purchaser due to fungal decay or insect attack, then replacement of the material will be provided by the manufacturer. This Warranty is limited to the original consumer purchaser or "first owners".

The manufacturer's liability under this Warranty is limited to the replacement cost of the defective LIFESPAN® SOLID SELECT product only. It does not include any other costs including freight, labor costs, finishing costs, consequential damages, incidental damages, or special damages arising directly or indirectly from the LIFESPAN® SOLID SELECT product, however caused.

To be covered under the limited lifetime Warranty, the "first owner" must be the recorded or documented owner of the property at the time or within 12 months of the time the LIFESPAN® wood product is installed by the builder or contractor. In all other circumstances the limited lifetime LIFESPAN® SOLID SELECT Warranty is not transferable to subsequent owners of the property.

In order to claim on this Warranty, the "first owners" must provide, at the time of claim, proof of purchase. This is necessary so that Fletcher Wood Solutions can properly identify the product as a LIFESPAN® SOLID SELECT product. This could include original invoices or sales receipts, or any LIFESPAN® SOLID SELECT end tags. Fletcher Wood Solutions may require, as a condition of meeting any warranty

claim, to inspect the relevant installation. In addition to satisfying all other conditions, limitations, and requirements referenced in this Warranty, any claims under this Warranty are specifically excluded unless the following specific terms and conditions are also satisfied:

- Compliance with all applicable Building Codes and Standards
- Compliance with the appropriate Hazard Class or Use Category (UC3A and UC3B). See "Where You Can Use LIFESPAN® SOLID SELECT" under the "Handling and Installation" section on page 10.
- Handling and installation requirements. See the "Handling and Installation" requirements section on page 10.
- The LIFESPAN® SOLID SELECT must have been well maintained in service in accordance with standard building recommendations and practices.

Except for the foregoing, and to the maximum extent permitted by law, Tenon makes no other warranties, representations, or conditions, expressed or implied, as to or concerning LIFESPAN® SOLID SELECT including claims and complaints relating to priming, painting, resin bleed, environmental, or health and safety issues and any and all other representations, warranties, terms and conditions implied by any laws are excluded.

Fletcher Wood Solutions makes no claim that LIFESPAN® SOLID SELECT will protect non-LIFESPAN® products from insects, rot or fungi. For further information regarding the terms and conditions, please contact your LIFESPAN® SOLID SELECT supplier.
